Thanks Jeff. As we discussed, you are on board to speak about the containers issue (and I connected you with Cheryl for that), and I will follow up with Judy about declining the invitation to speak about the reporting rule that is currently under development.

Thanks everyone,  
Jonah

Hi all,

This came up because the ChemWatch folks (Judy Jackson) had made contact with OPP because of the container issues and PFAS. We had a conversation with her and it morphed into the ask – 1 high level talk and the other on the reporting rule.

We really need someone to talk about the reporting rule. It is a 15 minute max prerecorded presentation. Then be live the day of for questions.

Jonah – how did you hear about this?

Thx and please let me know.

That sounds to me like Chemwatch's ask, but maybe Jeff has more info based on his conversation with them?

Thanks,  
Jonah

Thanks for the flag, Jonah. ChemWatch has not reached out to us yet on this, at least as far as I'm aware. From the little info I have here, I presume this is about the PFAS reporting rule – and it would seem to be against the rules to discuss a rule in any sort of detail that we haven't yet proposed. Or perhaps I'm missing something...?

OPPT,

For your awareness, in a conversation Jeff Dawson had with ChemWatch, they asked about an OPPT person to speak about the reporting rule (see email below). I'm not sure if ChemWatch has also reached out to OPPT directly.

Keep in mind that anyone who wants to meet about a rule currently at OMB must schedule the meeting through OMB per Executive Order 12866. Depending on what ChemWatch has in mind for the meeting, the EO may apply. <https://www.reginfo.gov/public/do/eo/neweomeeting>

Please let me know if you have any questions.

Thanks,  
Jonah

Jonah,

I went back and looked at my notes on from Judy Jackson with Chem Watch. They were proposing 2 talks. One at a high level – not so much science based which is the one which I would be doing. The second is on the TSCA reporting rule proposal which I think is at or going shortly to OMB now. Someone needs to be identified with familiarity on that proposed rule in OPPT to give that talk.

I will go ahead and get back with Judy on my presentation and steps forward if that works for everyone.

Thanks

Jeff
